In the Claims:

Please amend claims 6, 8, 9 and 11 as follows:

6. (Twice Amended) A system for enabling a user to designate, in a computer system, at least one geographic location, the system including:

a surface on which is disposed a map of a geographic area, the geographic area including the at least one geographic location, the map including coded data indicative of an identity of the map and of a plurality of reference points of the map;

a printer for printing the map, including the coded data onto the surface, the printer being adapted to print the map and the coded data substantially simultaneously;

a sensing device comprising:
